MEMORANDUM

TO: Plan Commission
FROM: Gabe Gilbertson, Community Development Director
RE: Plan Commission meeting of November 19, 2024
DATE: Friday, November 15, 2024

All Code Sections in this memo refer to the March 25, 2014 Sussex Municipal Code Chapter 17 with subsequent amendments thereto.

02. **Minutes of the Plan Commission meeting of October 15, 2024.**
03. **Consideration and possible action on Permitted Uses and Site Plans.**
04. **Conditional Use Public Hearing(s) and consideration and possible action on Conditional Use Permits and Plans.**
 - A. **Consideration of a Conditional Use Permit amendment for Bubbles Foam Farm car wash located at the property identified by Tax Key Number 231.997.014 in the B-3 Highway Business Zoning District.**

The subject property is zoned B-3 Highway Business and is located directly north of Waukesha State Bank in the Metro Market commercial development. The land is currently vacant. The Plan Commission previously approved a Conditional Use Permit for a Mr. D's carwash on the subject site. Mr. D's carwash is looking to sell site to the current applicant who is proposing to construct a Bubbles Foam Farm carwash. Section 17.0506(9)(A)(1) requires a Conditional Use Permit for vehicle washing in the B-3 Highway Business District and because this would be a new owner and building, a Conditional Use Permit amendment is required.

The Municipal Code requires one stall per employee on the largest shift. The site plan has three parking spaces to accommodate three employees on a shift – the applicant will need to confirm there are no more than three employees on each shift. The Code also requires enough room for 4 waiting vehicles per washing stall; the site plan provides enough space for 15+ waiting vehicles, and spaces for 2 vehicles for vacuuming; there are 15 spaces for vacuuming.

The Petitioner will need to prove the standards/conditions found in the Conditional Use section of the Zoning Code during the Public Hearing process. These standards/conditions are attached to this memo.

Policy Question:

1. Are there any concerns the Plan Commission has that they may want the applicant to address at the public hearing.
 - a. If the Plan Commission recalls, the previous approval was conditional upon the owner executing a Declaration of Restrictions regarding the existing stormwater easement on the north side of the property as well as a Sewer RCA Agreement. Those documents from the previous approval have been attached.

Action Items:

1. Direct staff to schedule the public hearing.

Staff Recommendation: Staff recommends scheduling the public hearing for the December 17, 2024 meeting.

05. **Consideration and possible action on CSM's, Plats, Zoning and Planning Items.**
06. **Other Items for future discussion.**
07. **Adjournment.**

NATIVE SEEDING

ESTABLISHMENT OF A VIABLE VEGETATION COMMUNITY WITHIN THE BIO INFILTRATION BASINS WILL BE COMPLETED BY HAND-BROADCASTING OF PRE-DESIGNED SEED MIXES TO CREATE A DYNAMIC PLANTING.

PRIOR TO SEEDING:

- A.

ALL WEEDS AND EXISTING VEGETATION SHALL BE REMOVED. EXISTING VEGETATION SHALL BE TREATED WITH GLYPHOSATE OR SIMILAR HERBICIDE BY A LICENSED PROFESSIONAL. TREATMENT SHALL OCCUR A MINIMUM OF 10 DAYS PRIOR TO SEEDING/PLANTING. VEGETATION STILL ALIVE AFTER INITIAL HERBICIDE TREATMENT SHALL BE TREATED A SECOND TIME PRIOR TO TILLING INTO THE SOIL.TREATED VEGETATION SHALL BE TILLED INTO THE SOIL NO EARLIER THAN 1 DAY PRIOR TO SEEDING.
- B.

PREPARATION OF SOIL PRIOR TO SEEDING

1. REFER TO CIVIL PLANS FOR SOIL MIXTURE.
2. ALL FOREIGN MATERIALS LARGER THAN 1-INCH SHALL BE REMOVED FROM THE SOIL PRIOR TO SEEDING OR PLANTING.
3. AREA SHOULD BE FREE FROM UNSIGHTLY VARIATIONS, RIDGES, AND DEPRESSIONS.
4. AVOID DRIVING OVER THE SPECIFIED AREA WITH MACHINERY.

SPECIFICATIONS FOR HAND BROADCASTING:

SEEDING SHALL BE CONDUCTED IN LATE FALL (SEPTEMBER 1- SOIL FREEZE) SO THAT SEEDS MAY LIE DORMANT DURING THE WINTER, ALLOWING FOR STRATIFICATION, OR SPRING (MARCH 1-JUNE 1) TO ALLOW A COMPLETE GROWING SEASON TO BECOME ESTABLISHED.

A. COVER CROP

1.

ANNUAL RYE SHALL BE SPREAD AT A DENSITY OF 20 POUNDS PER ACRE DURING THE PLANTING OR SEEDING OF THE NATIVE PLANT SPECIES TO STABILIZE THE SOIL AND REDUCE THE GROWTH OF UNWANTED VEGETATION. THIS ANNUAL GRASS GROWS RAPIDLY WITHOUT COMPETING WITH THE WILDFLOWERS AND GRASSES THAT ARE PLANTED IN THE TARGET AREAS.
2.

WINTER WHEAT OR PERENNIAL RYE SHALL NOT BE USED AS A COVER CROP. THESE GRASSES MAY OUT COMPETE PRAIRIE SEEDLINGS, LEADING TO A REDUCTION IN THE SUCCESS OF THE PLANTINGS.

B. SEED MIX:

1.

MIX ALL NATIVE SEED WITH VERMICULITE ACCORDING TO AGRECOL RECOMMENDATIONS AND INSTALLATION GUIDELINES.
2.

BROADCAST HALF THE SEED OVER THE ENTIRE SITE OR TARGET AREA.
3.

BROADCAST THE OTHER HALF OF SEED PERPENDICULAR TO THE DIRECTION THAT THE FIRST HALF OF THE SEED WAS BROADCAST.
4.

COVER SEED WITH $\frac{1}{4}$ -INCH TO $\frac{1}{2}$ -INCH OF SOIL (USE ANY EXCESS SOIL FROM THE SITE) WITH RAKE OR DRAG.
5.

ROLL SITE TO ENSURE FIRM SEED-TO-GROUND CONTACT.
6.

KEEP SEED CONSTANTLY WET THROUGH GERMINATION PERIOD. GENERALLY 3 WEEKS.

ALL SEEDING SHALL BE COVERED WITH 1-INCH OF CLEAN, NON-INVASIVE STRAW (NO MARSH HAY, OR REED CANARY GRASS) WITHOUT SEEDS, WITHIN SEVEN DAYS. WHEAT, RYE, OATS, OR BARLEY ARE ACCEPTABLE FORMS OF STRAW. THOSE AREAS OF SLOPES STEEPER THAN 8:1 (EIGHT FEET HORIZONTAL TO ONE FOOT VERTICAL) SHALL BE PLANTED NO LATER THAN OCTOBER 1 AND STAKED WITH AN EROSION CONTROL BLANKET TO PREVENT EROSION.

- BAREROOT PLANTING NOTES:
1.

SOAK ROOTS IN WATER FOR AT LEAST ONE HOUR BUT NOT MORE THAN 24 HOURS PRIOR TO PLANTING.
2.

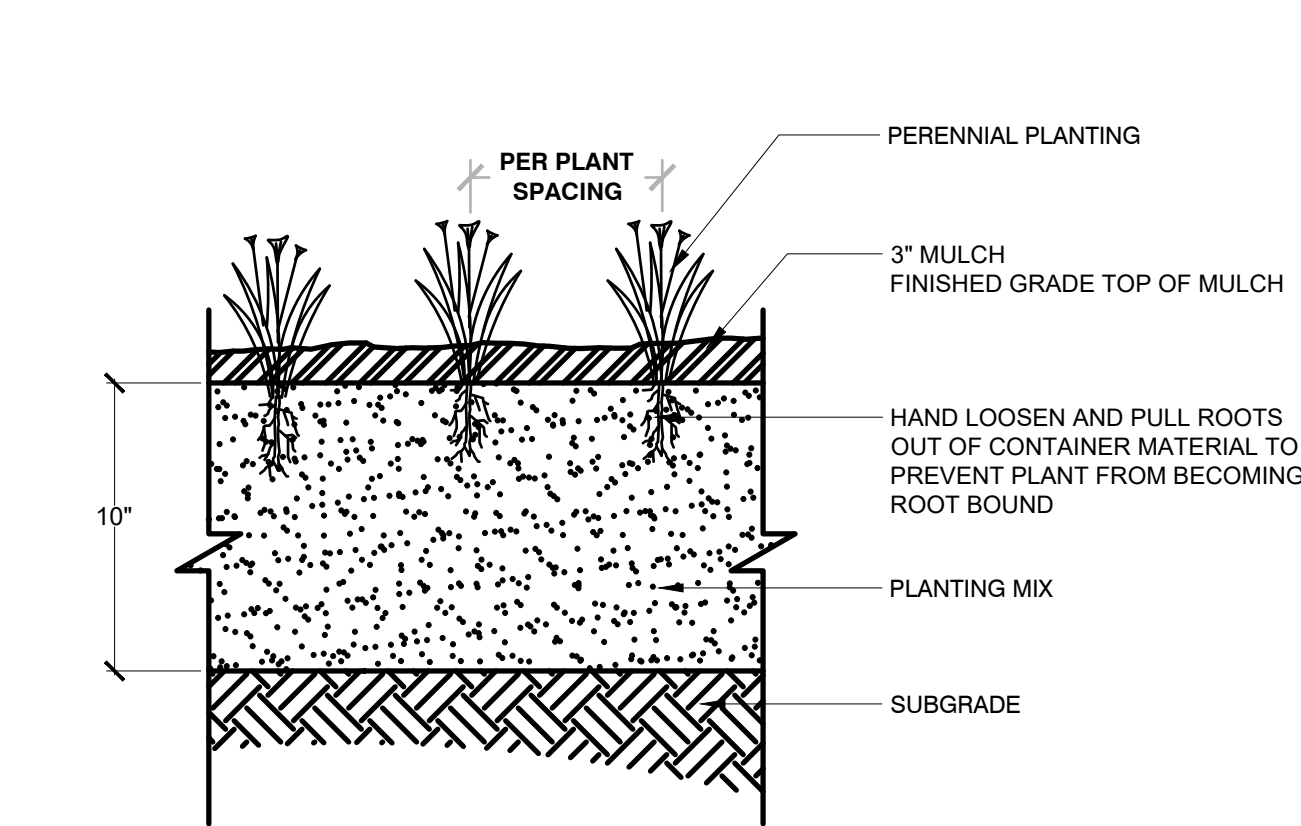

PROCEED WITH CORRECTIVE PRUNING OF THE TOP AND BOTTOM ROOTS.
3.

TRANSFER PLANT DIRECTLY FROM WATER TO HOLE. SET PLANT SO THE ROOT FLARE IS APPROXIMATELY AT THE FINISHED SOIL ELEVATION. SPREAD ROOTS OUT EVENLY. PLUMB AND IMMEDIATELY BACKFILL WITH PLANTING SOIL MIX.
4.

WATER THOROUGHLY WITHIN 2 HOURS TO SETTLE PLANTS AND FILL VOIDS.
5.

BACKFILL VOIDS AND WATER SECOND TIME.
6.

PLACE MULCH WITHIN 48 HOURS OF THE SECOND WATERING UNLESS SOIL MOISTURE IS EXCESSIVE.

PRELIMINARY SET - NOT FOR CONSTRUCTION

November 19, 2024

To the Plan Commission, Village of Sussex

We are very excited and honored to propose a new site for Bubble's Foam Farm in the Village of Sussex, Wisconsin.

Bubble's is a fast-growing, privately held company focused on customer experience and employee opportunity. Founded in 2020 by two individuals from the Lake Country area of Wisconsin, Bubble's Foam Farm has become the premier car washing retailer in Southeast Wisconsin. With a unique membership model, a professional youth staff from the community, and values in line with the people of Wisconsin, we are extremely excited to bring our business to Sussex.

Bubble's Sussex is proposing a modern farmhouse-style architecture for a pleasing aesthetic in one of Sussex's most prominent areas. Our brand, though visible throughout, will be displayed in a fun yet mature and understated fashion, designed to not overpower the style of the building. Landscaping will be balanced, with new trees added to the site along with shrubberies and grasses. Our grounds will be clean and meticulously maintained, as we believe they are a direct reflection of our company and values.

The proposed Sussex location will be what is known as an express car wash. This is a conveyORIZED, semi-automated car wash where the business cleans the exterior, and the customer may choose to detail their interior or drive off after receiving their wash. Washes are commonly sold via single purchases, wash books, or monthly membership plans. We will have 3 lanes for stacking, 3 self-serve pay stations, top-of-the-line car wash equipment, and numerous amenities such as towels, window cleaners, and vacuums to finish off the interior. Local staff will be there to welcome, guide, and support customers throughout the process.

In Oconomowoc, Bubble's is known as an environmentally smart alternative to driveway or in-bay car washing with lower freshwater consumption and controlled discharge of soaps. We plan the same here in Sussex and will be installing a water reclamation system with newer technology for more efficient usage and higher capacity.

Currently, our wash uses about 80-90 gallons of water per car, with approximately 30 gallons of this being fresh; the rest is recycled water. This is a compelling reduction in freshwater consumption compared to a touchless in-bay automatic without a reclaim system, which typically consumes over

100 gallons per car. Since the installation of our Oconomowoc site, reclaim systems have further improved, and with these advancements, we are targeting a 30-40% reduction from Oconomowoc levels—equating to less than 20 gallons of freshwater per car in Sussex.

This is also significantly less than at-home car washing, which typically uses 30-50 gallons per car. Furthermore, nearly all used water from professional car washing is returned to the treatment facility or reused, whereas home car wash water has a higher potential to infiltrate the soil, surface water, and groundwater systems.

Bubble's is more than a car wash—it's become a local community member. In Oconomowoc, we employ 31 people, including two full-time managers, four part-time assistant managers, and 26 part-time team members. As a growing company, these numbers fluctuate as we fine-tune our labor model and services. We are also developing digital training videos for our team to align customer expectations and team performance better. All of this will transfer to our proposed Sussex location, where we estimate employing just over 40 people. Combined, Bubble's Foam Farm would then employ over 70 people in the Lake Country area.

From a customer perspective, it's not uncommon to see people chatting or reconnecting at the vacuums. Customers talk about their hobbies, cars, kids, and sports. We have the privilege of facilitating this community experience while delivering a protected and shiny car. Customers leave feeling good, knowing one of their largest investments, besides their family and home, is well-cared for.

Bubble's doesn't just participate in and host community events; we also give back. Since our inception in December 2020, Bubble's has donated over \$30,000 in cash and hundreds of free washes as fundraising tools for local nonprofits. We annually support Zachariah's Acres, Special

Village of Sussex

Bubble's is a business that takes the environment seriously, creates jobs, fosters a family atmosphere, and is quickly becoming a valued part of the community.

We look forward to feedback from the City and the community and will do our part to make this business and site one that people would be proud to have next door.

The Plan Commission may add additional conditions for the Petitioner to meet in the Conditional Use. The shaded areas (if any) reflect items in the code that are unlikely to be meritorious to the application or are administrative in nature.

The Conditional Use Standards:

17.0502 APPLICATION. Applications for conditional use permits shall be made to the Village on forms furnished by the Village and shall include Sections A, E, F and G. and may include any or all of Sections B, C, and D. as determined by the Administrator:

A. Names and addresses of the applicant, owner of the site, or other appropriate entities or persons implementing the project as required by the Administrator.

B. Description of the subject site by lot, block and recorded subdivision or by metes and bounds; address of the subject site; type of structure; proposed operation or use of the structure or site; number of employees; and the zoning district within which the subject site is located. For floodland conditional uses, such description shall also include information that is necessary for the Plan Commission to determine whether the proposed development will hamper flood flows, impair floodplain storage capacity, or cause danger to human or animal life. This additional information may include plans, certified by a registered professional engineer or land survey or, showing elevations or contours of the ground; fill or storage elevations; first floor elevations of structures; size, location and spatial arrangement of all existing and proposed structures on the site; location and elevation of streets, water supply, and sanitary facilities; photographs showing existing land uses and vegetation upstream and downstream; soil types; and other pertinent information.

C. A topographic map, drawn to a scale of not less than 200' to 1" showing the land in question, its legal description and location; location and use of existing buildings; sanitary systems and private water supplies on such land; the high water elevation of any navigable water within 100' of the land in question; and the proposed location and use of any buildings, sanitary systems and wells on such land and within 100' of such land in question.

D. Additional information as may be required by the Plan Commission or Administrator. **{This may come out during the Public Hearing.}**

E. A fee, as may be established and periodically modified by resolution of the Village Board, shall accompany each application. Such fee shall be paid by cash, check or money order to the Village. Costs incurred by the Village in obtaining legal, planning, engineering and other technical and professional advice in connection with the review of the conditional use and preparation of conditions to be imposed shall be charged to the applicant.

F. Where necessary to comply with certain Wisconsin Statutes, an application will be submitted at the appropriate time to the Department of Natural Resources. The site plan and plan of operation information sheet and plan of operation approval form furnished by the Village shall be submitted prior to scheduling before the Plan Commission.

17.0503 REVIEW AND APPROVAL. The Plan Commission shall review the site, existing and proposed structures, architectural plans, neighboring uses, parking areas, driveway locations, highway access, traffic generation and circulation, drainage, sewerage and water systems, and the proposed operation.

A. Upon receipt of the application, foregoing data and fees, the Plan Commission shall establish a date for a public hearing and shall public notice of the hearing once each week for two consecutive weeks in the official newspaper. Notice of the public hearing shall be given to the owners of all lands within 200' of any part of the land included in such conditional use by mail at least 10 days before such public hearing. A copy of the notice of public hearing along with pertinent information relative to the specific nature of the matter (copy of application and map) shall be transmitted without delay to the Plan Commission. Compliance with this subparagraph shall not be a condition precedent to proper legal notice and no hearing or action taken thereon shall be deemed invalid or illegal because of any failure to mail the notices provided for in this subparagraph.

B. The procedure for public hearing before the Plan Commission shall be as follows: 1. Any person may appear in person, by agent, or attorney. 2. The Plan Commission shall afford the applicant and each interested person opportunity to present evidence to rebut or offer countervailing evidence. 3. The Plan Commission shall take minutes of the proceedings and shall mark and preserve all exhibits. The Plan Commission shall, when requested by an applicant or a petitioner objecting to the action, cause the proceedings to be taken by a stenographer or by a recording device provided that the applicant or the petitioner objecting making the request pays any and all costs for the stenographer or recording device and any copies of the proceedings. If requested by both the applicant and the petitioner the costs shall be split evenly unless otherwise agreed to by the parties.

C. Within 95 days of the completion of the hearing conducted by the Plan Commission, the Plan Commission shall render its written determination stating the reasons therefore. If additional time is necessary beyond the 95 days referred to above, such time may be extended with the consent of the petitioner. Failure of the Plan Commission to render a decision as set forth shall constitute approval of the permit. The factual basis of any decision shall be solely the evidence presented at the hearing. The Village Clerk shall mail a copy of the determination to the applicant.

D. Conditions such as landscaping, architectural design, type of construction, flood proofing, anchoring of structures, construction commencement and completion dates, sureties, lighting, fencing, planting screens, operational control, hours of operation, improved traffic circulation, deed restrictions, highway access restrictions, increased yards, or parking requirements may be required by the Plan Commission upon its finding that these are necessary to fulfill the purpose and intent of this ordinance.

E. Compliance with all other provisions of this ordinance, such as lot width and area, yards, height, parking, loading, traffic, and highway access shall be required of all conditional uses unless otherwise authorized to be modified by a conditional use. Variances shall only be granted as provided in Section 17.1200 of this ordinance.

F. Changes in use subsequent to the initial issuance of a conditional use permit shall result in a need to change the initial conditions and shall require an amendment to the conditional use permit. Enlargement of a conditional use shall not be considered an amendment. If any holder of a conditional use permit wishes to extend or alter the terms of such permit, the permit holder must apply for an amendment to the conditional use permit through the procedure of application for conditional use permits detailed herein. The process for amending a permit shall generally follow the procedures for granting a permit as set forth in Sections 17.0501, 17.0502 and 17.0503, and shall require the filing of an application and a hearing as provided above.

No boarding facility may sell, trade, or in any other way exchange animals. The Plan Commission when determining the appropriateness of the site for animal boarding shall take into account the available space for outside animal activity and the impact the noise of such a facility will have on adjacent properties. An animal boarding operation shall be at least 1,000 feet from a residential zoned property, measured from the closest point where any boarded animal may be located to the closest residential zoning district property line.

The Plan Commission recognizes that customer's demands of animal boarding services and the culture related to taking care of pets is regularly evolving. These changes make it improbable to list all of the accessory uses of an animal boarding operation in the Code; therefore, the Plan Commission may consider accessory uses to the animal boarding operation such as, but not limited to; animal grooming, animal physical rehab, animal photography studios, retail sales of animal related products, if the Plan Commission finds the following:

- 1) The accessory use is consistent with the intent of the zoning district.

If the plan so indicates, and if the plan is approved, then general public parking uses may be permitted upon such terms and conditions as are agreed upon in writing between the Village Board and the property owner, in a form approved by the Village Attorney. The Plan Commission shall approve the parking plan only if it finds all of the following:
 - (1) The lot where the proposed parking is located must be immediately adjacent to a lot that is zoned B-4 Central Mixed Use District that is proposed for development or change of use; and

5. Satellite dish antennas located on the roof of the principal structure or in the rear yard. Where the satellite dish is roof-mounted, a registered engineer shall certify that the structure is adequate to support the load.

All development proposals shall be evaluated against the adopted Village vision of maintaining a small town atmosphere within the Village, featuring a generous amount of greenspace in residential, commercial, and industrial developments.

I. Plans and Specifications to be submitted to Plan Commission

1. To encourage a business environment that is compatible with the residential character of the Village, building permits for permitted uses in Business Districts shall not be issued without review and approval of the Plan Commission. 17.0506

CONDITIONAL USES

- A. The following agricultural, mining, commercial, industrial, and institutional uses shall be conditional uses and may be permitted as specified, but all Conditional Use applicants must produce a "Impact Report" detailing the impacts of said use to neighboring properties and to Village services from traffic, parking, and overflow parking, noise, odor, safety, crime, hours of operation, health and sanitation, and property maintenance issues. The Village Administrator shall analyze said report along with any supplemental reports from the Village, and its agents, to create an impact report for the application utilizing the Professional and Technical Trade standards for traffic, noise, dust, light, crime and fire prevention, etc. as a guide for the same. The Petitioner shall then prove by substantial evidence how their use will mitigate and address the findings of the impact report. In addition additional standards shall apply for specific types of uses as follows:

9. Retail Trade

- a) Vehicle sales, vehicle service, service of vehicle parts, vehicle parts sales including vehicle washing, vehicle repair stations, service of vehicle parts and vehicle parts sales in the B-2, B-3 and B-4 Districts No outside storage shall be permitted for vehicle parts sales even by issuance of a conditional use permit as set forth in 17.0506(A)(15)(e) of this Ordinance. All other outside storage that may be granted by CU shall be on a hard paved surface and shall be screened from view, or in the case of vehicle sales the landscaping shall be aesthetically pleasing to minimize the visual impact of a parking lot of vehicles.
- b) Gasoline service stations in the B-2 and B-3 districts provided that the use shall include traffic control measures to ameliorate-- traffic congestion; that lighting and glare shall not extend into adjacent residential neighborhoods; and that service islands shall comply with the minimum setback requirements of the district. Canopies over a gasoline service island may extend into front, side or rear yard areas, but shall not encroach more than six (6) feet into any required yard. In no case, may a canopy extend into a street right-of-way.

Site Plan Review Standards 17.1000

17.1002 PRINCIPLES To implement and define criteria for the purposes set forth in Section 17.1001, the following principles are established to apply to all new structures and uses and to changes or additions to existing structures and uses.

A. No structure, or use shall be established that is counter to the intent of the Design Standards nor shall the same be permitted that would have a negative impact on the maintenance of safe and healthful conditions in the Village. Structures and uses in the B-4 Central Mixed Use District shall also adhere to the intent of the Downtown Development and Design Plan.

B. No structure shall be permitted:

1. The design or exterior appearance of which is of such unorthodox or abnormal character in relation to its surroundings as to be unsightly or offensive to generally accepted taste and community standards.

2. The design or exterior appearance of which is so identical to a building on lots within 500 feet of each other that it creates excessive monotony or drabness, in order to realize architectural uniqueness between lots.

3. Where any exposed facade is not constructed or faced with a finished material or color which is aesthetically compatible with the other facades and presents an attractive appearance to the public and to surrounding properties.

C. The facade of a manufacturing building which faces upon a street right-of-way shall be finished with an aesthetically pleasing material. A minimum of 50 percent of a facade facing a street shall be finished with brick or decorative masonry material. Such masonry facing shall extend for a distance of at least 10 feet along the sides of the structure. Manufacturing buildings on corner lots shall have the required masonry facade facing each street. Metal buildings may be constructed in any business, manufacturing, institutional, or park district, but only by a 3/4 affirmative vote of the Plan Commission.

D. Building Scale and Mass. The relative proportion of a building to its neighboring buildings, to pedestrians and observers, or to other existing buildings shall be maintained or enhanced when new buildings are built or when existing buildings are remodeled or altered.

E. Structures and uses shall make appropriate use of open spaces and the Plan Commission may require appropriate landscaping and planting screens. All landscaped areas shall provide a mix of climax trees, tall and medium deciduous trees, tall and medium coniferous trees, deciduous and coniferous shrubs, and grasses. The appropriate mix shall be determined by the Plan Commission.

F. No articles, goods, material, finished or unfinished product, incinerators, storage tanks, refuse containers, or like equipment shall be kept outdoors, exposed to public view, or exposed to view from adjacent buildings and property. Garbage and refuse containers shall be screened from the street and from neighboring facilities. The Plan Commission may permit the outdoor display of product or merchandise when it makes a finding that such display is essential to a business or industrial use.

G. Structures and uses shall be provided with adequate services as approved by the appropriate utility and serve to implement the recommendations of Utility and Stormwater Management Plans of the Village.

H. Buildings and uses shall provide adequate parking and loading areas. No loading dock or overhead door shall face upon a street right-of-way unless a determination is made by the Plan Commission to allow the same, as described herein.

1. The Plan Commission shall not allow the same unless the Plan Commission first finds either a or b: (a) That the loading dock or overhead door is set back at least 75 feet from the street right-of-way and adequate vehicle turnaround areas have been provided on the lot, such that no maneuvering of vehicles will take place within the street right-ofway in order to access the loading dock or overhead door. (b) That the building is on a lot within the M-1 Industrial District and the building has a previously approved loading dock facing the street.

2. If the Plan Commission finds (1) (a) or (1) (b), above, then the Plan Commission may allow the loading dock or overhead door to face the street right-of-way upon consideration of the following additional factors, without limitation by reason of enumeration: 17.1000 (a) Whether the loading dock or overhead door is set back sufficiently from the street right-of-way to adequately limit the adverse visual impact of the loading dock or overhead door; (b) Whether the number of loading docks or overhead doors that are proposed to face the street right-of-way, due to their number, would create an adverse visual impact; (c) Whether the natural terrain and other existing features of the lot may affect the visual impact of the loading dock or overhead door; and (d) Whether the loading dock or overhead door will be appropriately screened with landscape berms or other landscaping.

Any other standards from Chapter 17 that may be relevant.

AGREEMENT

THIS AGREEMENT dated this ____ day of _____, 2024, between Bubbles Foam Farm Car Wash (hereinafter collectively “Petitioners”), and the Village of Sussex, a municipal corporation of the State of Wisconsin, located in Waukesha County (hereinafter referred to as the “Village”).

WHEREAS, Petitioner desires to construct a carwash on the parcel identified by Tax Key Number SUXV0231997014 in the Village of Sussex, Waukesha County, Wisconsin (hereinafter referred to the “Property”); and

WHEREAS, pursuant to the conditions of approval for the Conditional Use Permit and Building Permit and based upon annual projected water usage of 3,397,500 gallons per year the Village levied a reserve capacity assessment for sanitary sewer systems in the amount of \$6,191 per REC (A REC is 52,000 gallons) which equates to 65 RECs; and

WHEREAS, pursuant to the conditions of approval for the Conditional Use Permit and prior to the issuance of a building permit Petitioner shall pay the Village the fee of \$402,415.00 for the reserve capacity assessment (RCA) for sanitary sewer systems to be used by the Village in the Village’s sanitary sewerage collection and treatment facilities; and

WHEREAS, Petitioner does not have precise water usage data nor can the Village precisely calculate the water usage that this use will have, but rather has estimated usage figures; and

WHEREAS, Petitioner and the Village shall enter into an agreement regarding the reserve capacity assessment for sanitary sewer systems in the event that actual water usage exceeds the projected water usage of 3,397,500 gallons.

NOW, THEREFORE, in consideration of the foregoing, and for other good and valuable consideration, the receipt and sufficiency of which is hereby acknowledged by the parties hereto, Petitioner and the Village hereby agree as follows:

1. Reserve Capacity Assessment- Sanitary Sewer.

As provided in the Village Land Division and Development Ordinance, the Petitioner has paid as a one-time fee a reserve capacity assessment to be used by the Village in the Village’s sanitary sewerage collection and treatment facilities for the benefit of Bubbles Foam Farm Carwash. The projected reserve capacity assessment was based upon water usage of 65 RECs at a rate of \$6,191 per REC, for a sum of \$402,415.00, which sum shall be paid prior to the issuance of a building permit.

In the event that actual water usage by Petitioner exceeds 3,397,500 gallons per year, the Village may levy an assessment against the Property based upon the difference between the 3,397,500 gallons and the actual water used per year. If there is additional water usage the charge will be based on the number of additional REC’s and fractions therein multiplied by the rate per REC in effect for that year.

Petitioner hereby waives, pursuant to Section 66.0703(7)(b), Wisconsin Statutes, any and all requirements of the Wisconsin Statutes which must be met prior to the imposition of special assessments, including, but not limited to, the notice and hearing requirements of

Chapter 66, Subsection VII, Wisconsin Statutes and agrees that the Village may proceed immediately to levy the Special Assessments as outlined herein.

Petitioner further waived its right to appeal from the Special Assessments and stipulates that the amount of the Special Assessment levied against its property has been determined on a reasonable basis and the benefits to its property from the proposed improvements exceed the amount of the Special Assessment against such property.

In addition, Petitioner waives its right under Section 66.0627 and agrees to promptly pay any special charges which may be levied against its property. The municipality shall levy such assessments in conformity with this Agreement, pursuant to Chapter 66 Subchapter VII and Section 66.0627, Wisconsin Statutes.

2. The Village will look at REC usage annually for the first five years after occupancy of the building is granted to verify water usage per this agreement. Petitioner also understands that if changes are made to the use of the facility that result in additional water/sewer usage that additional REC's may be due at that time of change of use of the facility, if such use occurs.

The Village does not waive any rights provided under Sussex Sewer Service Code, including those with regard to enlargement, adjustment, termination or limitation to any changes to charges.

3. This agreement is binding upon Petitioner, owners, their successors and assigns, and any and all future owners of the property (the "Successors").
